Terex Loader Backhoes

Our focus is you. At Terex you are our source of all inspiration; you are the source of all action. You are our goal; your delight is our purpose. You are our patron; your service is our privilege.

Made in India. Made for India. In our country, backhoes run many-times more hours per year and for a much longer life, than other markets. So equipment for your use in India, must be designed tougher and better. They must also be easy to maintain in every neighborhood. Terex has designed its backhoes keeping these objectives in mind. Terex loader backhoes have been developed in India for Indian market from application and maintenance points of view.

Designed with your needs in mind, Terex loader backhoes uses the latest technology to achieve best possible fuel efficiency and finest digging & loading performance. These machines work faster while digging and loading at lower operating and maintenance costs. Highlights of this product are fuel efficiency achieved through unique Smart^{UC} Hydraulics and durability achieved through quality & technology innovation.

Our Focus is you. We are committed to delivering Reliability, Economy and your Peace of Mind.

GET INTO A DIFFERENT LEAGUE

TLB 844S with SMART^{UC} Hydraulics for low diesel consumption

Works Harder

Made *in* India. Made *for* India.

TLB 844S

Engine power: 90hp (gross) @ 2200rpm

Smart^{UC} Hydraulics for lower diesel consumption

Maximum hydraulic pump flow: 142LPM @ 2200rpm

Standard bucket - Loader - 1 cu.m, Excavator 0.25 cu.m

Powerful Terex Loader-Backhoe TLB 844S is designed for fastest digging and loading in the toughest strata. The reliable and efficient TLB 844S, will confidently beat any competitor in a match of digging, loading or dozing while Smart^{UC} hydraulics on this machine help you save diesel even while maximizing work output. TLB 844S Works harder.

TLB 740S with SMART^{UC} Hydraulics for low diesel consumption

Works, Earns for you

Made *in* India. Made *for* India.

TLB 740S

Engine power: 76hp (gross) @ 2200rpm

Smart^{UC} Hydraulics for lower diesel consumption

Maximum hydraulic pump flow: 119LPM @ 2200rpm

Standard bucket - Loader - 1 cu.m, Excavator 0.25 cu.m

Terex Loader-Backhoe TLB 740S is designed to set new standards in fuel economy while delivering excellent, uninterrupted digging and loading. TLB 740S will work year on year to maximize your earnings, in any application.

Heman 175

It is the first indigenously manufactured skid steer loader, an engineering feat designed, manufactured to work in India. This machine is known for its compactness, maneuverability, versatility and ease of maintenance. With its wide range of attachments like Tiller, Bale Handler, 6-in-1 Bucket, Auger Sweeper Collector and many more, it can perform in the most demanding situations.

Heman 175

Engine Power: 65 hp (gross) @2200 rpm

NA 4 cylinder in line direct injection, liquid cooled.

Optional: 80 hp (gross) @2200 rpm

Turbo, 4 cylinder in line direct injection, liquid cooled.

Hydraulics

Engine driven gear pump with valve block, twin arms lift cylinders with end cushion, and dual bucket cylinders.

Flow: 83 litres per min, working pressure - 175 bar

Standard bucket - Loader - 0.46 cu.m

Loader TXL 760

Engine Power: 90hp (gross) @ 2200rpm

Kirloskar Oil Engines 4R1040T Four cylinder Turbo Charged Water Cooled Diesel engine. Powerful, Fuel efficient, Turbo charged KOEL engine. Easy to maintain & service.

Hydraulics

Maximum flow (both pumps) 142 LPM (80LPM+62 LPM) @ 2200rpm

Main Relief Pressure 3250 PSI (225bar)

Standard bucket - Loader - 1 cu.m

RL 4000 Light Tower

Engine Power: 13.6 hp

Lamps: Metal halide 4x 1000W

Generator: Brushless 60Hz, 6.0 kW

Dual self-braking winch design for fast and easy tower erection and extension.

30 ft (almost 10 m) light height at full extension for excellent illumination at long distances.

360 degree tower rotation to provide pin-point light positioning at your work site.

4,000 Watts of light - enough to illuminate 7-1/2 acres.

Quiet 71 dBA sound levels at 23 feet (7m).

AFTER SALES SERVICE THAT HELPS YOU RELAX

For sales, service and parts support for its valued customers, Terex Equipment Pvt. Ltd. has a motivated nationwide dealer network. There are 49 Terex dealers with 105 branch offices all across India and the neighbouring countries, to ensure availability of local support in every neighborhood. These dealers have over 600 trained, experienced engineers for servicing Terex equipments. Dealers stock adequate parts and lubricating oil to deliver maximum uptime on our equipment. These dealers are supported by a team of 50 of Terex own officers that supervise the network to ensure consistent service across the country.
